Education

Panimalar Engineering College, B.E in Computer Science Engineering Sept 2023 – May 2027
• **Coursework:** Data Structures and Algorithms, Database Systems, Operating Systems, Computer Networks

Skills

Languages: Java 17, Python, JavaScript, SQL

Technologies: React, Angular (v19), HTML5, CSS3, Tailwind CSS, Bootstrap, Fast API, Spring Boot (Basic), PostgreSQL, Git, GitHub, Postman

Projects

AI for Defence – Real-Time Weapon Detection Web Application

YOLOv8, Python, Flask, Computer Vision, Web Deployment

- Developed a real-time weapon detection web application using YOLOv8 for identifying potential threats through image processing.
- Implemented optimized object detection pipeline for accurate and responsive inference.
- Designed a web-based interface for real-time monitoring and visualization of detection results.
- Presented research findings under AI for Defence initiative demonstrating practical deployment feasibility.

Fuel Management System

Hardware Integration, Research Implementation

- Designed and developed a hardware-based fuel monitoring system for efficient fuel usage tracking.
- Extended the system into research and hackathon presentations, leading to IEEE publication recognition.
- Contributed to system architecture and implementation for data tracking and reporting optimization. reducing failed transactions

Disorder Identification Web Application

Machine Learning, Flask, Web Deployment

- Built a web-based early detection system supporting disorder identification using machine learning techniques.
- Implemented preprocessing and classification pipeline for predictive analysis.
- Designed user interface for screening support and preliminary assessment results.

Research & Publications

- IEEE Xplore Publication (2025): Fuel Management System – i-PACT 2025 (Paper ID: #65952)
- AI for Defence: Research paper selected and project presented on real-time weapon detection system

Achievements

- Won 4th Prize along with Most Innovative Solution at Techathon conducted by Cognizant
- Semi-Finalist at EDII Hackathon (Tamil Nadu Government Initiative)
- Won 4th Prize at Ideathon conducted by Panimalar Engineering College
